# QUIZ CHICK

## WHAT IS QUIZCHICK

QuizChick is a digital creating and delivery platform where you can create interactive learning content and access a rich selection of ready-made modules and e-learning materials to reach a large audience.

All content created through QuizChick can be played in all mobile devices, desktop computers and laptops, and creates a perfect technology-supported learning experience!

## **COMPATIBLE WITH DIGITAL E-LEARNING STANDARDS**

All content is compatible with HTML5, SCORM 1.2, SCORM 2004 ve xAPI (Tin Can) which makes it compatible with various LMS platform.

## **ONLINE AND OFFLINE**

The created content can be accessed online through a browser and/or can be downloaded to computers or mobile devices for offline access.

## **OPEN SOURCE**

Thanks to our HTML5 player and java opensource software, you can develop the ready-made modules while creating entirely new modules.

## HELP AND SUPPORT

Our experienced team is always ready to help you with any problem during content creating and publishing process. Our job is to help you achieve your goals as soon as possible.

*“All progress is the result of human ideas. Putting ideas into action must be our initial priority.”*

*K. Atatürk*

A hand holding a compass against a dark blue background. The compass is in the foreground, slightly out of focus, and the hand is holding it from the left side. The background is a solid dark blue color.

# Best address for

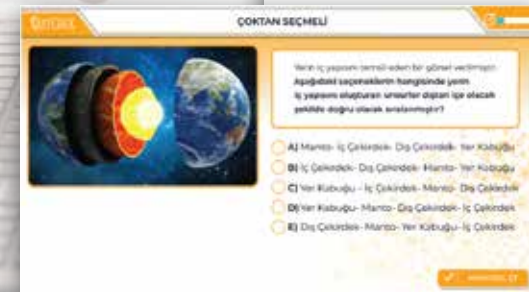

**your digital content**

with dozens of functional  
modules open to

**development.**

## OUR INTERACTIVE MODULES
